PACIFIC COAST FREIGHT.

Contract Between the U. P. R. R. Company and Loading Shippers.

NEW YORK, Jan. 4.—The Sun has the following copy of the form of contract which the Union Pacific railroad company is making with large shippers to the Pacific coast in this city, Boston, Philadelphia and Baltimore. An introductory note from the general freight agent of the company specifies that the parties to the contract can consign their goods to the California Fast Freight line at Chicago, over any one of the trunk lines leading west from those cities. The contract is made for one year. The rates are as follows from either of the cities to San Francisco: For textile fabrics not otherwise specified, made exclusively of cotton, and shipped in original piece—quilted or coverlets, comforts or cotton yarn, cotton twine, cotton warp and seamless bags, \$2 25; for balls, wadding, empty trunks, nested, \$2; for the table oil-cloth, glazed bags, agate buttons, metal and horn pant buttons, buckled cotton umbrellas, three cord spool cotton, and empty trunks not nested, \$2; for gen'tl's domestic hoseery, and gent's domestic knit underwear and woolen blankets, \$3 50; for ladies' domestic hoseery, ladies' domestic knit underwear, mosquito bars, cheviots, check and calico shirts, jeans and drill drawers, ladies' cotton summer skirts, crash towels, towelling, pins, hair-pins, corset steels, hooks and eyes, \$4. For clothing, Cardigan jackets, lamb and woolen goods, including mixture of cotton and wool and American dress goods, \$5. In case the railroad publishes a lower tariff than this, the merchant shall have the benefit of it; and in the event of a discontinuance of its present relations with the Pacific Mail Steamship Company, which shall result in greater competition for the traffic between New York and San Francisco, the rates to be charged said party of the second part shall not exceed those current by the Pacific Mail Steamship Company's vessels at the time of shipment by more than \$1 50 for all goods rated by this agreement at or above \$4 per 100 pounds, or \$1 per 100 pounds for all goods rated by this agreement at less than \$4 per 100 pounds. To secure the advantage of these low rates, the merchant, the party of the second part, agrees to ship all his goods by rail only. "For," says the contract, "it being clearly understood to be the object and purpose of this agreement to secure for and give to said party of the first part the transportation of not only that class and portion of freight of the party of the second part which has hitherto been shipped by rail, but also all that class and portion which it has been the custom of the party of the second part to ship by way of the sea, and from which the party of the first part has hitherto enjoyed the benefit or revenue."

It is also understood that a shipper shall not allow anyone else to take advantage of his contract by lending the use of his name or shipping mark to others. All goods must be shipped via Council Bluffs or Omaha. The contents of each package must be definitely described according to schedule classification; and to guard against being defrauded in this respect, the company reserves the right to open and inspect such packages as they choose. If the company finds a shipper has attempted to defraud it in this way it will leave a double schedule tariff.

NEW DEPARTURE.—On and after December 1st, 1878, the store of Manning & Duck will be conducted on a cash basis. Every customer will be compelled to pay for his own goods. No extra profits for bad debts. We propose to sell goods cheaper than they have ever been sold in this market. We are compelled to take this important step by several weighty reasons: First, we wish to encourage prompt payment. Second, the prompt payer should not be compelled to pay as extra profit for the slow customer or the man that never pays. Third and most important reason, we are not able to carry so large an amount of capital in stock, and are compelled to keep stock of goods. Good gilt edge customers will be allowed a credit of thirty days. If by agreement longer time is given, interest of 1 1/2 per cent a month will be charged.

A. B. The old accounts of Manning & Duck must be settled by cash or note by the 1st of January or they will be placed in the hands of a collector for collection.

EDITORIAL NOTES.

The people of Nevada City, California, are evidently anti-coolies of the right sort. They mean what they say and act up to their words. The *Herald* says:

The effects of not giving employment to Chinamen about town are plainly visible in the Chinatowns of Nevada City. Those who are most familiar with them—from being daily in Chinatown—say that there are not more than half as many Mongolians in our city at present as there were one year ago. To say the least, there has been a large thinning out. There are several causes which have operated to drive them hence, such as the influence of the Caucasian organization, the strenuous opposition of the Workingmen to their employment, and other local causes; but the chief thing which operated to drive them away from our midst is the difficulty which they encounter in securing employment. Formerly nearly all the jobs about town, such as sawing wood, etc., were given to Mongolians, but now boys and others have succeeded in monopolizing this class of work.

Of course they are still on the coast somewhere, but if every place should offer the same hindrance to them that is afforded here by most of our citizens, they would be compelled to migrate to more favorable localities. Probably this will be about the only way to settle the vexatious question. We are glad to note in this connection that several of our leading statesmen, such as Senator Blaine and others high in political power, are looking at the matter in its correct aspects, and are willing to do all they can, through legislation, to remove this objectionable class from among us.

This one example is better than all the blather of Kearny and his kind. If we don't give John work he will be forced to go elsewhere to live.

The newspapers of the state are very generally taking up the matter of a pardon for Alf Chartz. The *Echo* of Saturday says:

Our readers are already familiar with the circumstances which caused the conviction and incarceration of Alf Chartz in the state prison. Few of them, we opine, are inclined to believe that he deserved such a severe sentence. It is true that he killed Ricker, but every circumstance connected with the killing goes to show that he believed his own life to be in danger; that, in fact, he had good reason to believe that he was to receive immediate bodily injury at the hands of his opponent, who suddenly confronted him. Now, we know Chartz and sympathize with him; believe that he has already been sufficiently punished, and hope that the board of pardons will review the case in the same light that a majority of the people do, and release Chartz.

There is an item going the rounds of the press giving the views of some schoolteacher, who withheld his name, concerning the superiority of the newspaper over the text book as a means of educating the young. A lively newspaper would no doubt be vastly more interesting reading to the guileless youngsters than the ordinary "reader," but we hardly think that police court reports, accounts of murders, outrages, lynchings, and *crim. con.* cases, which figure so largely in life and therefore in the newspapers, make the sort of mental food to place before children, whose impressibility is vastly more active than their judgment.

The state treasury contains at present, according to figures supplied by the *Carson Appeal* by State Treasurer Schooling, exactly \$713,061.58. Of this, \$702,997.11 is in coin, and \$10,054.47 in currency. The claims against the treasury for which warrants have been issued amount to \$45,285.43. If all these are paid there would yet be a balance of exactly \$668,066.15. The State of Nevada pays annually on account of interest and sinking funds, \$51,193.36.

Lovely woman may not care much for her political rights but when it comes to seizing the back hair of her social privileges and hanging on to the same, she may be depended upon. Two hundred arrests for drunkenness were made in New York on New Year's day, and over fifty women were arrested on the following day, most of whom assigned as a reason that it was "ladies" day.

The *Eureka Sentinel* says that Mr. Cole has "won an enviable reputation upon the bench of the district court," Jim Anderson is connected with the *Sentinel*.

Some of the interior papers of California have altogether too much re-

finement. The efficacy of the Lower Lake *Bulletin* has been outraged, as witness this chaste paragraph from its issue of Thursday last:

"Will the Healdsburg *Enterprise* take notice that when a body dies decomposition follows, and not mortification! The body of Mr. and Mrs. St. Clair's babe began to decompose and not to mortify before it was buried."

The Lyon County *Times* has begun its tenth volume. Under the management of Mr. Pickett the *Times* has become an admirable newspaper. It gives all the news of its field and editorially it is sensible and forcible.

The Gold Hill *News* and the Virginia *Chronicle* are both abusing Eli Perkins for having discovered a sure cure for drunkenness.

Fred Douglass Visits His Old Home.

Frederick Douglass has recently been on a visit to his old home at Easton, Maryland—a circumstance that affords the *Easton Gazette* a theme for a column editorial, in which Mr. Douglass is thus courteously spoken of: The contrast of his going out from among us and his coming back is as wonderful as any told in Eastern story. He left our country under compulsion; he left the state by stealth. He comes back by invitation, openly and freely, not to receive blows, but an ovation; not to ask pardon of those whom he had disobeyed, but to extend pardon to those by whom he had been wronged. He left us with a mind darker than the skin he bore; he comes back to us radiant with an intelligence that his white and venerable head most fitly symbolizes. He went out from us crushed, cringing, submissive, humble; he returns to us full of dignity and courage. He left us a slave without a country; he comes back our equal before the law, and our fellow citizen, with all which that implies. He left us a chattel; he comes back a man. During his stay in Easton Marshal Douglass hunted up his half-brother, who has always been a resident of Talbot county, but is now old and decrepit, and signified his intention to take him home with him, and provide for his necessities.

Christmas at Alta.

[Dutch Flat Forum.]

Another of those low-lived disgraceful affairs took place at Alta Christmas Day. The particular make up the old story of whisky and cards. Some men were playing poker at Barnard's when a dispute arose about Win. Smith not putting up his ante, and he struck a man named Thornton, one of the party, in the face, and then shot him in the shoulder with a derringer. As it happens the wound is not dangerous, and Dr. Martin extracted the ball. Smith is most respectably connected in Dutch Flat and in Sacramento county also. Smith immediately left town, and Thornton's friends swear they will kill him if he returns, as the shooting was altogether unjustifiable. The threats of violence makes matters no better. Lou Wright, another one of the players, in the scrimmage raked in the pot and decamped.

Financial and Labor Affairs in England.

New York, Jan. 4.—The London *Times*, just received, presents a lamentable picture of the financial and labor conditions in England. The number of insolvencies last year is set down at five thousand greater than the preceding year. The artisan population is in a miserable condition—many thousands being in actual want or unpleasantly near it. The distress particularly affects what is designated as the lower middle class. Labor complications continue to be numerous, increasing the hours of labor. The newspapers discuss many schemes for the bettering of business, and assign various causes for the present depression. But, meanwhile, trade and production are in a highly embarrassed condition with no bright prospect of improvement.

Precautions Against an Indian Rising.

WALLA WALLA (W.T.), Jan. 4.—Every preparation is being made by the military and civil authorities to prevent trouble at the Umatilla Reservation next Friday, when the two Indian murderers are to be hanged. Two companies of cavalry will leave Walla Walla for the scene on Tuesday. Sheriff Sperry has 100 armed men also on hand.

On New-Year's Day native ex-treasures of Umatilla county was out hunting cattle, with his son, they were chased and threatened by Pee, son of the Umatilla Chief, Winamoot, who abused them, and said if they had been any other white men he would have killed them. They were unarmed except with a very small pocket pistol. This forbodes trouble, if the Indians are all impudent and insolent.

Awful Warning.

[Gold Hill News.]

It has come to light that the man Cressey, who mortally shot his wife in San Francisco the other day and then cut her throat with satisfactory results, was formerly a preacher at Rocklin. The moral sticks out like a nail from the sidewalk. —RENO GAZETTE.

The Nees call attention to the fact that in Byfield, Massachusetts, last Monday night, John H. Caldwell while kneeling in prayer had his head split open by his insane wife. Careful people avoid dangerous habits and practices.

The custom of giving presents at Christmas and New Year, as well as the egg presentations at Easter, is of very ancient origin, but better opportunities were never offered than this present season at I. Fredrick's jewelry store. Cheaper than ever.

OWING to the recent stock panic, many poor children will make the usual visit of Santa Claus; still this need not be so, for you can buy all sorts of nice presents, cheaper than ever, at I. Fredrick's Jewelry store.
